Can I get help completing an application on the State's HealthPlanFinder?

Will I get advice and recommendations on which plans meet my needs best?

What if I don't qualify for a tax credit? Are there more options to consider?

After I buy, can I get help with benefit questions or claims issues throughout the year?

The Washington Health Insurance Exchange is an agent-owned private health insurance agency that has provided a marketplace for Washington consumers to compare and apply for health coverage since before health reform was signed into law and government-created health 'exchanges' were introduced to the public. For expert advice at no additional cost, call the Health Insurance Exchange at 360-464-1622.
